

## Riesers's hiking suggestions

### ROFAN & KARWENDEL MOUNTAIN RAILWAYS

If you want to avoid having to climb every single metre of altitude yourself, the Rofanseilbahn and Karwendel-Bergbahn cable cars offer the perfect 'assistance'. It is important to have appropriate equipment for mountain tours around Lake Achensee. Solid footwear (ankle-high moun-

tain boots) and water-proof clothing are essential. We also recommend bringing binoculars so that you can observe any marmots, bird species and the flora and fauna you encounter along your mountain tour in Pertisau.

entrance to the Karwendel valleys and from here you walk along the toll road towards Pletzachalm and to the foot of the Feilkopf. Here an ascent leads up through a new forest and along a forest trail which leads to the mountain hut.

### TOUR PERTISAU - BÄRENBADALM MOUNTAIN TOURS

A very beautiful mountain tour around Lake Achensee which covers 4.8 km of distance and takes around 2 hours. The route covers 865 m of altitude from Pertisau to the Bärenbadalm and as such is classed as being of medium difficulty. Enjoy one of the most fantastic mountain tours

in Pertisau, setting off from the valley station of the Karwendelbahn cable car which leads via a forest trail to the south and then east towards Seespitz. After approx. 800 m, the route leads right to the Bärenbadalm hut.
